

## **Cellar person – Heater Allen**

Heater Allen is a small family run brewery in McMinnville Oregon that specializes in traditional German and Czech style lager beers. We are primarily a production location that self-distributes to the greater Portland-metro area and Washington State. Our small tap room is open limited hours, Fridays and Saturdays, and for the occasional event.

We are looking to add a cellar person to our *\*very\** small team. Applicants for this position would need to be willing to fill several roles around the brewery as needed. This includes but is not limited to:

- Keg washing and filling
- General Cellar work (cleaning/sanitizing tanks, racking beer, etc.)
- Assistance with brewing
- Occasional Deliveries
- Occasional tap room duties

While we do not require a lot of experience for this position, we would like someone that is passionate and knowledgeable about beer; beer experience (homebrewing, professional, educational) is a definite bonus. The ideal candidate for this position should be someone that can work well and can stay motivated working by themselves.

This job reports to the Head Brewer. Position is full time, compensation will be determined based on experience, health insurance available after 60 days.

### **Job Responsibilities, including but not limited to:**

- Execute the necessary production duties
- Follow best practice and safety requirements dutifully.
- Maintain brewing and cellaring related documentation in an organized and complete manner.
- Attend brewery staff meetings as required.
- Clean and sanitize all equipment and work areas to maintain consistent beer quality.
- Possess a well-rounded knowledge of brewing, beer styles and beer knowledge.
- Willingness to participate in festivals and promotional events as needed while representing the company and the brand in a professional manner.
- Manage beer and equipment for local accounts as needed.
- Perform basic sensory analysis of beers and raw ingredients throughout fermentation and packaging.

### **Physical Requirements:**

- Lift 55 lbs. from ground to shoulder high.
- Lift 75 lbs. from ground to waist high and moving 150 lbs. along the floor.
- Climb stairs, ramps, and ladders. Crouch under tanks as needed.
- Work in small and cramped spaces.
- Work safely with chemicals with reasonable safety accommodations.
- Work in loud environment with basic safety accommodations.
- Read, write and calculate basic algebra.
- Follow safety guidelines and adhere to PPE standards.
