

Brewer – Rusty Truck Brewing

Rusty Truck is looking for a new head brewer. Our brewery is an established small brewery in Lincoln City on the Oregon Coast. We have a 20-barrel system with automated grain in and grain out - not a lot of heavy lifting involved. The facility is new, clean and spacious.

The position requires an experienced brewer responsible for all aspects of the brewing process. The brewer must be able to brew beer and follow established recipes, develop new and interesting recipes, maintain and clean all brewing equipment, keep brewing records, as required, attend festivals and promotional events, as well as order malt, hops and other ingredients for our beer.

Please respond to our owner, Brian, at attywhitehead@gmail.com
