

Position: Head Brewer

Primary Responsibilities:

- Manage brewery production and operation, including
 - Scheduling of brewery staff and production
 - Maintaining raw material inventories
 - Product and supplies inventories
 - Operate and maintain canning equipment
 - Order fulfillment
- Participate in new recipe development
- Maintain and assure beer quality including basic lab work
- Hire and train brewery staff
- Maintain and improve SOPs
- Maintain records to assure beer quality and adherence to regulatory requirements
- Assure maintenance of brewery equipment
- Assure DEQ, OSHA and other regulatory compliance

Ideal candidate will have at least three years' experience in a production brewery environment, planning production schedule, developing beer recipes, operating a Wild Goose canning line, sourcing beer ingredients, wort production, cellar operations, basic lab operations (yeast cell counts, wort measurements, plating for microbes) and some experience operating and maintaining brewery equipment. A degree in brewing science or equivalent knowledge through work experience is a big plus.
